Ford Highway
Mack Thomas Road
Union Church Road
Valley Creek Spur
Middle Creek Road
Red Mill Road
Williams Cem Road
Locust Grove Road
Sportsman Lake Road
Puckett Road
Howell Road
Jeffries Road
Mackey Road

Our County Snow Removal Plan

Our Hardin County Road Department clears the snow and ice from county-maintained roads. We currently have 889 roads equaling 589 miles of roadway. We divide the county into five areas for the purpose of snow removal. Within each area, we have priority roads and secondary roads. The priority roads are basic system roads essential for traffic movement throughout the county, while secondary roads are a part of a subdivision or lead into a subdivision. The column to your left and continuing on the next page, lists all county priority roads.

Kentucky's Department of Transportation covers all interstate and state roads such as Highway 31W, Highway 84, Highway 86, Highway 62, and Highway 313. This state agency also covers such roads as 1357 (St. John Road) and 1600 (Rineyville Road).

We commonly use rock salt as our deicing agent when the temperature is above 25 degrees. The salt can melt several inches of snow and prevent or reduce the bonding of compacted snow on the pavement surface. We will apply a salt brine to hills, curves, and intersections before a snowstorm to keep ice and snow from bonding to the pavement; however, the roads must be dry for the brine to be effective.

Our main objective is to provide for your travel safety in the most reasonable, efficient, and effective manner. On the next page are simple suggestions to help us help you.

Attention Motorists

Priority Roads

Area 3

Cecilia Smith Mill Road
 Bacon Creek Road
 Starmills-Eastview Road
 Wonderland Cavern Road
 Star Mills Road
 Cave Road

Area 4

Hayden School Road
 Cecilia Road
 Crisp Road
 Charles Tabb Road
 South Blackbranch Road
 Hansborough Road
 Franklin Crossroads Road

Tips for driving:

- Allow extra time to get to destination
- Limit travel and check weather
- Accelerate and decelerate slowly
- Drive slowly
- Increase following distance to four times your usual distance
- On dull, cloudy days, use your low-beam headlights
- Know your brakes
- Don't stop if you can avoid it
- Don't power up hills
- Don't stop going up a hill
- Don't use cruise control
- Properly inflate your tires
- Never mix radial tires with other types of tires
- Keep gas tank at two-thirds full
- Avoid using your parking brake
- Check all fluid levels including antifreeze and no-freeze fluid in washer reserve

Area 4 (continued)
