Work Order Date: _____

Project Identification: Name: Fire and EMS Building

Project No: 23-036 Location: Intersection of new KY 222 and Old KY 222 connector in Glendale, KY.

SCOPE OF WORK (attach sheet if necessary to describe)

Pitman Green will complete records research of the existing recorded information including deeds, plats, highway plans, and utilities. Pitman Green will begin the field operations for the project to first determine the site features, boundaries, utilities, and general topography for the property specifically working towards the project phasing and goals. Special attention will be placed on the entrances from the state roadways. Pitman Green will coordinate with the local state jurisdiction to develop an approved entrance location. Once the topographic survey is complete, Pitman Green will develop a site layout for owner approval. After the site layout is approved, Pitman Green will begin developing the grading plans and details, including detention and water quality design for construction and permit approval.

SCHEDULE OF WORK (attach sheet if necessary to describe) Project will begin within 14 days from the notice to proceed date.

FEE: \$15,000.00
