LEPP Grant Award Process

Due to the large volume of applicants and the uncertainty of funding received by the confiscated weapons auction, many months may transpire before LEPP grant projects are awarded. KOHS prioritizes funding according to need and/or receipt of applications and funds grants based upon the law's priority: 1) body armor, 2) service weapons/ammunition, 3) electronic-control devices, and 4) body cameras.

Submission of an application for Law Enforcement Protection Program grant funding does not guarantee a grant award. Law Enforcement Protection Program grant award recipients are notified by the Kentucky Office of Homeland Security in writing when a Law Enforcement Protection Program grant has been awarded.

APPLICATIONS THAT DO NOT HAVE ALL REQUIRED DOCUMENTATION ATTACHED TO APPLICATION WILL NOT BE CONSIDERED FOR FUNDING.

Certification & Authorization

I understand that submission of this application **does not** guarantee funding of the requested project. If the requested project is funded, the Kentucky Office of Homeland Security will notify each agency of LEPP grant award in writing with specific grant requirements such as amount funded, items qualified for grant funds, dates, and terms of grant contract.

Please note:

- Any items purchased outside of the LEPP grant contract dates or terms and conditions **do not** qualify for reimbursement.
- Any items not specified in the Law Enforcement Protection Program agreement will not be reimbursed.
- Pre-purchased items cannot be reimbursed.

I am aware of the requirements of KRS16.200 that directs all law enforcement agencies in Kentucky to deliver all firearms and ammunition confiscated by or abandoned by said agency to the Kentucky State Police. I hereby certify that my agency is in compliance with this statute.

The information in the application is true and correct and all required documentation is attached to application.

I am aware that the proposed project may be removed from further consideration should it be determined that there are significant discrepancies in the information provided, and/or false, inaccurate or incomplete information has been given.

The world changed on September 11, 2001. Our Country reacted to this new age of terrorism, accepting the fact that America never has faced a greater need to have additional watchful eyes on the streets of its cities, towns, and rural areas. These eyes possess the training, skills, and resources necessary to stop rapidly evolving situations before they become disasters. That alone is enough to purchase off duty weapons, but when you add that Hardin County is the fastest growing County in Ky* it is detriment that all deputy's be equipped 100% all the time. Equipping off-duty Deputy's with the same weapon they trained on and allowing for the exchange of magazines, when necessary, would benefit all deputy's and citizens.

Detailed Scope of work:

Project description – To purchase off-duty weapons for Deputy's.

Justification and gaps– Hardin County Deputy's currently use a 9mm pistol as an on-duty pistol. They are trained with a 9mm weapon, and they have experience with this weapon. If a deputy were to be involved in a shoot-out or other catastrophic events, magazine exchanges, not only between deputy's but within other agencies, could be lifesaving.

Certification & Training – Fortunately, Deputy's will have been trained and certified on these weapons.

**Hardin County is the fastest growing county with the addition of Ford arriving in Glendale and making these headlines, "BlueOval SK rivals world manufacturing facilities as largest." Some of the challenges include a predicted influx of 22,000 residents in the next five years and a needed 8,000 housing units for them to occupy, according to a transformative impact study presented at the Hardin County Chamber of Commerce meeting.*
