**EXHIBIT A
EXPENDITURE AMOUNT AND DESCRIPTION**

Expenditure Description:

The Treasury Final Rule governing permissible expenditures of ARPA/SLFRF funds permits expenditures aimed at improving access to clean drinking water, vital wastewater, and stormwater infrastructure, specifically those projects eligible to receive assistance under the federal Clean Water State Revolving Fund (CWSRF) or Drinking Water State Revolving Fund (DWSRF).

The COVID-19 pandemic revealed certain limitations, weaknesses, and inefficiencies in the County's ability to deliver safe, potable, drinking water to its constituents. Accordingly, to address that concern, the County plans to grant a subaward of its ARPA funds to the Hardin County Water District No. 2, which serves the County's population by providing drinking water transmission and distribution infrastructure and services at an affordable rate, to partially fund a larger project comprised of improvements to the Water District's transmission and distribution infrastructure, including the following projects, all necessary to ensure the County's population has affordable and reliable access to safe drinking water. The County has decided to pursue an extension of the Water Line for Hardin County EMS Center at Glendale.

In accordance with the foregoing, the County hereby authorizes a subaward of ARPA/SLFRF funds to the Hardin County Water District No. 2 in the amount of \$92,400.00 for the extension of the Water Line for Hardin County EMS Center at Glendale.

The foregoing Expenditure, in addition to Stites & Harbison, PLLC and Compass Municipal Advisors, LLC's administrative fees authorized by the September 28, 2021 Resolution, are hereby authorized by the County.
